

# Shawki Elkady

Software Engineer

+201283007009

[shawkielkady7@gmail.com](mailto:shawkielkady7@gmail.com)

## Summary

---

Frontend Software Engineer with **2+ years of professional experience** building scalable web and cross-platform mobile applications using **React.js, Next.js, Flutter, TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, and Cubit**. Experienced in developing production-ready software across **Healthcare, AI, E-commerce, Real Estate, Booking Systems, and Gaming** industries. Skilled in building responsive user interfaces, integrating REST APIs, implementing authentication, payment gateways, Google Maps, and performance optimization while following modern frontend architecture and Clean Architecture principles.

## Experience

---

### Frontend Software Engineer | React.js • Next.js • Flutter

*Flyfox, Alexandria, Egypt*

*Oct 2023 — Current*

- Developed scalable web applications using React.js, Next.js, TypeScript, and Tailwind CSS.
- Built cross-platform mobile applications using Flutter following Clean Architecture principles.
- Integrated RESTful APIs, authentication systems, Firebase services, payment gateways, and Google Maps.
- Collaborated with backend developers and UI/UX designers to deliver production-ready software.
- Improved application performance by optimizing rendering, minimizing unnecessary API requests, and enhancing user experience.
- Built reusable UI components to accelerate development across multiple projects.

## Education

---

Bachelor of computer and data science , Alexandria, Jul 2020 — Jul 2024

Faculty of Computer and data science

- Completed a capstone project on machine learning algorithms.

## Skills

---

- Problem-Solving
- API Design
- Cloud Computing
- Code Review
- JavaScript Frameworks
- Version Control
- Code Optimization
- Data Structures

## KEY ACHIEVEMENTS

---

- Built **11+** production-ready web and mobile applications.
- Delivered software solutions for clients in **Egypt and Saudi Arabia**.
- Developed applications serving multiple user roles including Customer, Provider, Delivery, Worker, Store Owner, and Admin.
- Built products across Healthcare, AI, E-commerce, Booking, Gaming, and Real Estate industries.
- Specialized in React.js, Next.js, Flutter, and scalable frontend architecture.

## Technical skills

---

### Languages

- JavaScript (ES6+)
- TypeScript
- Dart
- HTML5
- CSS3

### Frontend

- React.js
- Next.js
- Tailwind CSS
- Redux Toolkit
- Context API

### Mobile

- Flutter
- Cubit (Bloc)

### Tools

- Git
- GitHub
- Postman
- Android Studio
- VS Code
- Figma

### Concepts

- REST APIs
- Authentication
- Firebase
- Google Maps
- Payment Gateway Integration
- Responsive Design
- Clean Architecture
- Performance Optimization
- SEO

## Featured projects

---

### Invest Round — AI Investment Platform

Developed an AI-powered investment platform that enables users to discover investment opportunities, analyze projects using Artificial Intelligence, communicate through AI Chat, and participate in project funding.

**Technologies:** Next.js • React • TypeScript • Redux Toolkit • Tailwind CSS

### Sonic — Multi-Application E-commerce Platform

Developed a complete e-commerce ecosystem consisting of Customer, Store, and Delivery applications featuring authentication, shopping cart, checkout, order management, and delivery workflows.

**Technologies:** Flutter • Cubit • REST APIs

### **Wash Stations**

Built a complete booking platform for mobile and fixed car wash services including Customer, Worker, and Car Wash Owner applications with Google Maps integration.

**Technologies:** Flutter • Cubit • Google Maps

### **AVEN**

Developed a mental healthcare platform for Saudi Arabia allowing patients to maintain daily journals and monitor mental wellness.

**Technologies:** Flutter • Cubit

### **Pharmacy E-commerce**

Developed a complete pharmacy e-commerce platform integrated with a dedicated delivery application.

**Technologies:** Next.js • React • Redux Toolkit

### **Play Do**

Built a gaming station management platform supporting room reservations, room management, and additional services.

**Technologies:** Flutter • Cubit

### **Additional projects**

---

- Seen — Electronics E-commerce Website
- Juliana — E-commerce Website
- Albab Alawthaq — Real Estate Platform
- WFCs — Corporate Landing Page
- Hajj & Umrah Platform — Proxy Hajj & Umrah Booking System

### **Military Service**
